

Problem Gambling Day Treatment Program

Information and Referral Package
(January 2018)

Dear Colleagues and Clients:

Thank you for your interest in the ADAPT Problem Gambling Day Treatment Program. This 5-day program runs Monday through Friday, 9:30am to 3:30pm. It is available to any resident of Ontario.

Our program is facilitated by professional counsellors, who specialize in the treatment of problem gambling. Funded by the Ontario Ministry and Health and Long-Term Care, all services are fully confidential and provided at no fee to the participant.

We encourage participation in the program for individuals who are . . .

- Beginning treatment for problem gambling and would like to establish a solid foundation for ongoing recovery.
- Beginning treatment for problem gambling and would like to stabilize the gambling by accessing a full week of support in a safe setting.
- Trying to reduce or stop his/her gambling and are struggling to meet those goals through outpatient/community counselling.
- Working to stop or reduce gambling, but have had a relapse and would like to intensify recovery efforts.
- Attending other programs and would like to learn and apply new skills and strategies that will further strengthen recovery.
- wanting to attend a gambling recovery program in his/her local community, but does not feel safe in doing so because of concerned about privacy/anonymity.
- Wanting to attend a residential recovery program, specific to gambling, but cannot afford more than a week off work to meet this goal.

The ADAPT Problem Gambling Day Treatment Program also offers a “Family and Friends” workshop for those close to the problem gambler to gain information, education and support. Information will be provided during the day treatment cycle.

We thank you for your interest in this program. Please do not hesitate to call our toll free Intake Line for enquiries or referrals. The number to call is **1-866-783-7073**. We look forward to hearing from you.

Sincerely,

Ashley K Davidson
Program Manager
Problem Gambling & Behavioural Addictions

Referral Requirements

In order for our program to deliver the best services possible to each client, we ask that the following information be included at the time of the referral. If possible, our staff will develop specialized programming, based on the needs of the participants. Your assistance in helping us to have a clear understanding of the client's needs, goals and challenges is instrumental in enabling the program to best meet the client's needs.

Please include the following documents with your referral:

- 1) CATALYST Client Profile and Admission Information **OR** ADAPT Client Information form (provided in this package)
- 2) CATALYST OSAB Required Gambling Data Form **OR** OSAB form (provided in this package)
- 3) A signed consent to release and disclose information between referring agency and ADAPT (included in this package)
- 4) A signed consent to allow the ADAPT Day Treatment Program to contact the client directly (included in this package)
- 5) Safety and Special Needs form (included in this package)

Completed packages can be sent by fax:

905-639-6880
Attention: Ashley K Davidson

**Should you have questions, please contact Ashley Davidson at 1-866-783-7073
or 905-691-2687.**

Consent for ADAPT to Contact Program Participant Directly

(a) in Ontario _____ %

(b) In another province _____ %

(c) Outside of Canada _____ %

(numbers should add up to 100%, zeros not necessary)

PLEASE GIVE TO CLIENTImportant Program Information

Dear Program Participant:

Thank you for your interest in the ADAPT Problem Gambling Day Treatment Program. Our staff looks forward to meeting you and to working with you. We are committed to ensuring the program provides a safe and supportive environment for all participants. Please review this document. It contains some key information to help you prepare for participation in the program. If you have any questions or concerns, please do not hesitate to call the Program Manager at 905-691-0231 or toll free at 1-866-783-7073.

Food and Refreshments:

Our program believes that good nutrition is important to a healthy lifestyle. We encourage all program participants to eat a healthy breakfast each day before coming to the program. The program will provide coffee and tea each morning and lunch will be served at noon each day. All food and beverages are provided at no cost to the participants.

Food Allergies / Restrictions:

Program participants will be screened for food allergies and/or food restrictions based on medical, religious or personal needs. We will do everything possible to ensure that the food provided contains no ingredients identified as causing concern. Despite such precautions, some participants may choose to provide their own lunch. We ask that you please inform the program staff if you plan to bring food to the program site, to ensure that no products are brought into the site that may cause risk to other participants.

Clothing and Dress Code:

It is important that you are comfortable during the program. We recommend that participants wear a sweater or jacket to ensure that they can be comfortable if the room temperature fluctuates. Please do not wear any clothing with beer/alcohol logos, drug references, or gambling references or symbols.

Medications:

Participants who are taking medications for physical or mental health issues may continue to use these medications, as prescribed, during the program. It is the responsibility of each participant to ensure that they have all of their required medications for the day.

Under no circumstances should a participant accept or distribute medications from or to other participants.

If recent changes in your medications are causing notable issues with lethargy or concentration, please contact the program manager to discuss these concerns prior to the program start date.

If you have any emergency medications (Epipens, nitro-glycerin etc.), please bring these with you, and inform the program staff of any special instructions related to the use of these medications.

Substance Use

During the five days of the program, all participants are asked to abstain from all alcohol and/or drug use, including abuse of prescription medications. If you feel this will be a difficult condition for you to meet, please contact the program manager to discuss the issue prior to the program start date.

Gambling while in Program:

All program participants are encouraged to abstain from ALL forms of gambling during the course of the program. Even where abstinence may not be your long-term goal, we ask that abstain during the program week in order to stay focused on the program material that is provided.

Perfumes and Fragrances:

Some participants are sensitive or allergic to certain perfumes and fragrances. We ask that all participants refrain from the use of perfumes and fragrances during the program.

Sharing Personal Information:

We strongly recommend that you do not share personal contact information (i.e. phone numbers, addressed, e-mail addresses, etc.) with other program participants. Many models of treatment encourage group members to share their contact information in the hope that they can provide or gain support. In early recovery, however, the sharing of such information can increase your levels of personal stress and anxiety. In some cases, the sharing of personal contact information can increase relapse risk and threaten recovery.

Transportation:

The program does not provide transportation to and from the treatment site. All participants are responsible for arranging their own transportation. We strongly recommend that participants do not offer to provide transportation to other program participants. This recommendation is made for your own protection from potential liability and/or lawsuits.

Health Card:

The program does NOT require your Health Card Number. However, we ask that all participants have their Health Card with them at all times, in case of a medical emergency or accident that requires services through the local hospital.

Other Special Needs:

Please inform our staff if you have any other special needs. This will help to ensure that your involvement in the program is safe and comfortable.

Thank you for your consideration of these guidelines. We look forward to working with you in a safe, healthy and mutually respectful environment.
